1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I am customer of this company for about 9 years now.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

I am in strong protest of this water/sewer rate increase. As a customer of TCWS we have already been paying extremely high water & sewer bills for years. When we compare our rates to other local communities in SC, as well as NC communities Tega Cay is already well above the normal cost for water and sewer. Also, I do a lot of travel for work and have found that the majority of the cities I am visiting have substantially lower water and sewer rates in comparison to us in Tega Cay.

Again I am in PRTOEST of this rate increase and think it makes no sense in these hard economical times to increase rates for customers that are already having difficult times trying to make ends meet. Instead of trying to increase rates, TCWS should be finding a way to provide their customers and community with their water service instead of having to get from other local towns ("piping" it in). Also, TCWS could probably decrease rates if they didn't outsource the billing & payment functions!

3. Do you wish to make an appearance at a hearing in this proceeding , if scheduled, and offer sworn testimony? *

If in town and available, yes, I can attend.
